

Short Read Eliminator Kit Family

Version History

Short Read Eliminator Kit Handbook Version History

Short Read Eliminator Kit Handbook v1.0 (02/2019)

First publicly released protocol.

Short Read Eliminator Kits Handbook v2.0 (07/2019)

Current version compatible with all kit versions as of 07/2019.

Updated to support launch of Short Read Eliminator XS and Short Read Eliminator XL.

Update includes new guidance for kit selection and new sequencing data.

New protocols for size selection of sheared/fragmented DNA using SRE XS.

All protocols modified to change 1 hour 50 °C incubation to 20 minute room temperature incubation.
